

## Repair and Maintenance Agreement for AXP® Platform

# Protect Your AXP® Assets for Optimal Performance

A ThermoGenesis Repair and Maintenance Agreement can help keep your AXP® Systems operating at their maximum potential to support your stem cell processing program. Available on eligible AXP® Systems, coverage includes repair or replacement of defective or worn parts throughout the term of the contract period.

#### **BENEFITS OF A REPAIR AND MAINTENANCE AGREEMENT:**

- Maximizes AXP® System availability and uptime
- Eliminates unbudgeted and expensive time and materials-based repair costs
- Keeps covered devices in full working order

#### **COVERAGE INCLUDES:**

- Manufacturer's defects and normal wear and tear of equipment
- Parts and labor by authorized ThermoGenesis service providers
- Preventive maintenance on covered devices
